Our offer contains two types of „medical” cold rooms. First type it for storage of body. This product is directed for wide crowd of customers, like prosectories, funeral plants, institutes , investigative outposts, project offices and hospitals. These rooms are executable according to individual wishes of clients. Sizes, parameters and any every technical details are strictly consulted with the customer precisely which prevents any problems using a cold room. Those rooms can be supplied in many finishing variants. We also supply additional endowment like wheelchairs for transporting coffin.

Cryogenic cold rooms are also medical products. Our company specializes in those specialistic rooms. They are executable on special order according to customer need being non-typical and unique products. Such an unusual products are being checked by very restrictive claims because of high temperature differences.
